Exploring Concord's Past

"Behind the Barbed Wire: History of Naval Weapons Station Concord"

Saturday, December 2, 2017

11:30am to 2:00pm

The NEW Concord Museum and Event Center

This year's program explores two important elements of Concord's past and a slice of what its future holds. Special guest **Lloyd Crenna** will present photographs and answer questions about the fascinating "move" of the Concord Masonic Temple. Guest Speaker **John Keibel** will follow with an illustrated presentation of what went on behind the barbed wire fence. This story is an intriguing one: an intricate web of life and loss, national defense and protest, scientific advance and obsolescence.
